

To whom it may concern,

My budget is already tight enough being a new homeowner in the state of Connecticut. My wife and I cannot afford to spend any more in taxes than we already are in this state. There has to be a better way to reconcile the balance sheet other than adding more money to burn. I urge you to look hard at what you are spending OUR money on, and spend it wiser - so that the taxpayers of Connecticut are not overburdened. Look to our neighbors up north in New Hampshire for ideas on how they get by with low taxes.

Respectfully,

Jason Radice
