Subject: Taxes on Surveying and engineering

To whom it may concern,

We have just come through one of the toughest times in the real estate industry. Applying the sales tax to professional services to surveying and engineering firms will greatly affect my company. We will have to cut our prices to compensate for the additional tax people will have to pay. So, I urge you to look at what happened when the state tried to pass this tax about 25 years ago. It was a disaster. Please, do not extend the sales tax to professional services such as ours.
