Subject: High taxes

I am a single mom with three kids. I am a teacher, and I work hard just to make ends meet. Life is hard enough for working American's in Connecticut! How dare you raise taxes on us again. I did not vote for any democrat, and never will. Simply put...you are not smart. Every place I go people are talking about leaving Connecticut because of the high taxes, gas, groceries, and oil! Shame on you who sit back and can't figure out how to stop spending our money instead of taxing us to death. Shame on you for hurting the very people you should be serving! Shame on you for not caring about small business, and the people that go out every day to try and make a living! Shame on you for not working to find a better way! People are talking! People are angry! People will continue to leave this state! Stop taxing us now!!
