

No New CT Taxes!

The state legislature approved a budget crafted by the majority party and Governor Dannel P. Malloy that will raise taxes by \$1.85 billion over the next two years.

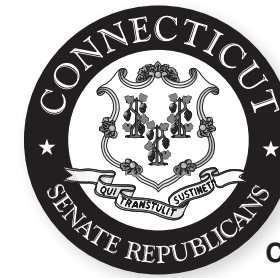

These massive tax increases, on top of \$6.4 billion in tax increases over the last four years, will further hurt families and businesses.

You should have a voice in this fight.

If you agree that more taxes are bad for our state, and you want your voice to be heard – please sign our petition below
