

As a CT Resident who works in NYC, I find it appalling that I pay unlimited taxes to NYS and very little to CT. I once heard that 14% of total taxes paid in CT came from Greenwich. Imagine what it would be if all the Greenwich Residents who worked in NYC and paid taxes but are unrepresented, actually paid up to a predetermined limit and actually paid taxes to CT. I bet we would solve our budget issues.

The money is there, its just funding Albany and not Hartford.
