Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Please strongly oppose the proposed sales tax on surveying and engineering services - this will crush small businesses like mine especially. In addition to long hours during the day, I work every night after my kids are in bed just to keep up on the business and don't have time or the workforce necessary to collect and pay sales tax. Between quarterlies, income and social security taxes, and payroll taxes, its too much to keep up with already. We provide a service, not a tangible good or product. Please help us with this...its a matter of survival.
