**Subject:** Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Scott, Connecticut does not need increased taxation. Those residents who pay taxes already are the most heavily taxed in the country between income, sales, gift, estate and corporate fees. State benefits--health, pension and welfare-- for state workers, retirees and low or no income recipients are too generous and must be reined in. Connecticut has a spending problem, not an income problem. Lile and John Gibbons
