Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

I am new to Connecticut. My family enjoys living in Orange and is impressed with the welcoming attitude of our neighbors.

I work 10 hours a day. Since coming to this state, my local, state, and federal taxes collectively the highest of any state I have lived. The cost of living is the highest in Connecticut. The price of housing, food, and daily living consumes much of the income.

I struggle reconciling the hours I work and the decreased time with my family. I shouldn't have to work for four and a half months to pay for taxes.

Connecticut residents are getting older by census data. The average age of physicians continue to exceed 55 years of age. We have the oldest physician workforce than most of the country.

Everything costs more in this state. We need to lower taxes and create jobs.
