

It's Time to Speak Out

May 7, 2015

I strongly oppose the tax increases especially the additional taxes on the wealthy and the sales tax on services.

I have a service business and will move it and my employees to another State if the sales tax on services passes. Also, I deal with many wealthy clients who have homes in various states and countries. Several of them have already taken up residency in Florida and more are considering that same move.

We must have laws that encourage people and businesses to move into CT ---- NOT out of CT!!!!

Please do not pass laws that hinder our ability to do business in CT!!!!
