**Subject:** Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

It wouldn't be bad if our taxes were used for logical improvements, but it seems that the more we pay the richer politicians get and the worse we get in debt. We're paying more so we can get farther down in this downward spiral we're in. We are all sick and tired of this political game. It's so bad now there are movies made about it and nothing is being done to change the govt. steam roller that's crushing our future.
